

## New Product Announcement

# TE Connectivity's enetSEAL+ Connector System for Sealed Data Communication Now at Mouser

**May 4, 2020** – [Mouser Electronics](http://www.mouser.com), Inc., the industry's leading New Product Introduction (NPI) distributor with the widest selection of semiconductors and electronic components, is now stocking the [enetSEAL+](#) connector system from [TE Connectivity](#) (TE), a world leader in connectivity and sensors.

[TE's enetSEAL+](#) connector system, available from Mouser Electronics, offers environmental protection by providing sealing to the wires and between the connector halves. The optimal, high-quality design helps reduce manufacturing and service costs, while the built-in secondary locking feature is designed to secure contact retention. Engineers can use enetSEAL+ products to connect sensing modules to improve operator awareness and enhance safety using Ethernet differential signal transmission [communication](#) protocols.

TE's enetSEAL+ connector system features IP67- and IP69-rated connectors to protect against dust, dirt, and moisture to reduce environmental failure in [automotive](#) applications such as cameras, onboard diagnostics, and infotainment as well as agriculture, radar and lidar, and [construction](#) systems.

As an authorized distributor, Mouser Electronics is focused on the rapid introduction of new products and technologies, giving customers an edge and helping speed time to market. Over 800 semiconductor and electronic component manufacturers count on Mouser to help them introduce their products into the global marketplace. Mouser's customers can expect 100% certified, genuine products that are fully traceable from each manufacturer.

With its broad product line and unsurpassed customer service, Mouser strives to empower innovation among design engineers and buyers by delivering advanced technologies. Mouser stocks the world's widest selection of the latest semiconductors and electronic components for the newest design projects. Mouser Electronics' website is continually updated and offers advanced search methods to help customers quickly locate inventory. Mouser.com also houses data sheets, supplier-specific reference designs, application notes, technical design information, and engineering tools.

### **About Mouser Electronics**

Mouser Electronics, a Berkshire Hathaway company, is an award-winning, authorized semiconductor and electronic component distributor focused on rapid New Product Introductions from its manufacturing partners for electronic design engineers and buyers. The global distributor's website, Mouser.com, is available in multiple languages and currencies and features more than 5 million products from over 800 manufacturers. Mouser offers 27 support locations around the world to provide best-in-class customer service and ships globally to over 630,000 customers in 223 countries/territories from its 750,000 sq. ft. state-of-the-art facility south of Dallas, Texas. For more information, visit [www.mouser.com](http://www.mouser.com).

### **About TE Connectivity**

TE Connectivity is a \$13 billion global industrial technology leader creating a safer, sustainable, productive, and connected future. Our broad range of connectivity and sensor solutions, proven in the harshest environments, enable advancements in transportation, industrial applications, medical technology, energy, data communications, and the home. With nearly 80,000 employees, including more than 8,000 engineers, working alongside customers in approximately 150 countries, TE ensures that EVERY CONNECTION COUNTS. Learn more at [www.te.com](http://www.te.com).

### **Trademarks**

Mouser and Mouser Electronics are registered trademarks of Mouser Electronics, Inc. enetSEAL+, TE, TE Connectivity and TE connectivity (logo) are trademarks of the TE Connectivity Ltd. family of companies. All other products, logos, and company names mentioned herein may be trademarks of their respective owners.
